Professional Summary

QA Automation Engineer with hands-on Testing Lead experience across Web and Mobile applications. Skilled in building automation coverage with Java, Selenium WebDriver, Appium, and ACCELQ, while combining testability improvements, regression strategy, API testing, and release-readiness ownership.

Technical Skills

Testing & QA: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Test Case Design, Defect Management

Automation: Java, Selenium WebDriver, Appium, ACCELQ, Carina Framework, Maven, Gradle

Tools & Processes: Jira, TestRail, Jenkins, Git, GitHub, Agile/Scrum, Test Strategy, Test Planning, Release Validation, Testability Improvements

Platforms & Development: Web, Android, iOS, Flutter, Dart, Firebase, Android Studio, Xcode

API & Data Validation: REST API Testing, Postman, SQL

Professional Experience

Acto

Toronto, Canada

Testing Lead

March 2025 - Present

- Promoted to Testing Lead after delivering a major technical improvement that increased the automation development speed by 40%.
- Contributed to AI feature development defining validation criteria, and quality risks for chatbot, summarization and content-generation flows.
- Coordinated automation and QA coverage across 12 QA contributors through weekly syncs, technical follow-ups, and documentation.
- Expanded iOS and Web regression coverage by automating 170+ scenarios across workflow, learning, certification, and content flows.
- Developed an AI-powered Jira-TestRail MCP server that automated regression scope creation and reduced manual effort by 35%.

QA Automation Engineer

October 2024 - March 2025

- Improved automation reliability and maintenance by introducing Accessibility IDs and a scalable locator strategy across 90% of the app.
- Built a 400+ case TestRail automation coverage structure across 8 of 10 Android modules, automating 220+ scenarios from that base.
- Supported Android release validation through smoke/regression testing and 110+ Jira defects logged across core application flows.
- Improved sprint effectiveness by 20% by structuring cross-functional workflows for ticket readiness, blocker visibility, and testing scope.

Sold Inc.

California, United States

Test Automation Engineer on a Fintech Project

June 2023 - October 2024

- Expanded payment regression coverage by automating 190+ mobile scenarios with Java, Selenium WebDriver, Appium, and Carina.
- Strengthened payment release quality by validating APIs and data consistency with Postman and SQL, reporting 220+ defects in Jira.
- Improved Java automation maintainability through test refactoring, reusable components, TestRail coverage, and Jenkins CI/CD runs.

Test Automation Engineer on a Healthcare Project

June 2022 - June 2023

- Automated 80+ iOS healthcare scenarios across patient records, forms, appointments, and role-based access with Java and Appium.
- Validated healthcare workflows through smoke, regression, API, and data validation testing, reporting 290+ Jira issues across releases.
- Enhanced test stability and app testability through locator refinement, reusable components, TestRail coverage, and Jenkins CI/CD.

Uella

Buenos Aires, Argentina

Founding Product Engineer

July 2021 - May 2022

- Developed iOS, Android, and Web features with Flutter for a pet-care app, including maps, auth, notifications, REST APIs, and UI/UX.
- Supported beta and production features through PR reviews, automation, smoke/regression, and E2E testing, reporting 220+ Jira bugs.

Personal Projects

Qapture

TypeScript - Java - Spring Boot

Designed and developed Qapture, a local-first QA automation platform for capturing UI elements, generating reliable XPath/CSS locator candidates, validating selector quality, and exporting structured testing assets for Selenium, Playwright, and web automation workflows.

Education & Certifications

- **University of Buenos Aires, Bachelor's Degree in Computer Science** — Jul 2025 – Expected Jul 2030
- **University of Cambridge, Proficiency English Certification (B2)** — Jul 2021 – Dec 2021
- **ACCELQ Automation Expert Certificate** — ACCELQ, Apr 2026
- **Selenium Proficiency Certification** — Solvd, Sep 2023
- **Java Programming Certificate** — Udemy, Apr 2023
- **Spring Boot 3, Spring 6 & Hibernate Certificate** — Udemy, Oct 2023
- **Globant Backend Certificate** — Globant, Apr 2025
- **Mobile Flutter Development Certificate** — DevTalles, Jun 2023
